

MEL HILLMER FIRST IN ESSAY CONTEST

Mel Hillmer, a pupil in the eighth grade of the Lincoln school, has been selected by the judges as the winner of the first prize for the best essay on "The United States Army," among all the essays submitted by pupils of the Rock Island schools.

Hillmer's essay will be sent to the Davenport reviewing office, where it will be judged. The essay was passed upon, with essays judged the best in other cities and rural school districts, and was a chance of winning the district prize, a silver loving cup, and a chance of the national award, a trip to Washington, D. C.

The essay receiving the commendation of the judges as the second best was submitted by Frank McCallister, a pupil in the Longfellow school. No second prize was offered.

The essay submitted by Miss Bode of the Rock Island high school was adjudged the best of the group submitted by high school pupils, but was eliminated in the final judging.

The local judges, Captain A. Oliver of the United States army recruiting service, Otto Hildebrandt of the Chamber of Commerce, and B. C. Utecht, chose these essays from the number of good ones submitted as superior in clarity, expression and originality of thought.

Teachers in the various grades of the public schools, whose pupils wrote essays at the time of the contest a week ago Friday, chose the best from among that number, which were in turn given to the three judges.

The prize winning essay follows: The young men of today do not seem to realize the great opportunity the United States government has placed before them. For I am sure if they did, they would at once get in line and enlist in Uncle Sam's great army of today.

First, there is the benefit from the financial viewpoint. The soldier is given his food, clothing, shelter, medical attention, education and amusement free. The private, the lowest paid army man, receives an income of \$360 annually. His \$30 per month is principally just spending money, while the man in civilian life has to receive wages over the average to have \$30 a month left after supplying himself with all his needs.

The country is always calling for skilled men. The unskilled have no chance to get a position until they become skilled. After a man has reached the age of 25 or 26, he does not want to go back to school where the pupils are so much younger than he. So the army is his place to go, where he receives all his wants free besides his wages. No man will pay his apprentice what the army does, or anywhere near it. The skilled man is working and earning good wages, while the unskilled are drifting around the country looking for work. This offer that the government makes is greater than anything of its sort in the history of our country. Most any man could enlist in this army. There are all the skilled trades in the world taught here, including doctors, engineers, machinists and many, many others.

During the world war we did not have enough people to back the government. We had just enough and many not to be proud about. In the army, the men are taught to respect the stars and stripes more than they did before. They learn to respect their superiors. The respect of their superiors is very little practiced. And it is here where they find their God. The men living together among so many kinds and classes of men see how God works out his own plan for their lives. It is here that they find the Almighty Power to which they owe their all. Now when the people have anything but ideal morals, the great need of our country is to build up and hold up our glorious land.

The Knights of Columbus National Council will establish in Davenport a free night school for veterans of the World war.

Choose any subject you desire.

Clerks are at the Dempsey hotel in Davenport from 9 a. m. to 9 p. m. to explain the courses.

Everything free to all soldiers, sailors and marines, who served in the World war, regardless of creed or where they live.

Registration Office will be open all day Sunday

ALL SPACE IS SOLD AND MORE IS ASKED FOR
 Show at Tabernacle Building Popular With Dealers—More Room Could Be Used.

Although the date for the opening of the automobile show at the tabernacle building Monday, March 8, is still a week away, every available inch of floor space has been sold to prospective exhibitors and more is being demanded. C. G. Van Vleet of Des Moines, manager of the show, is being besieged, along with the officers of the Tri-City Automobile Trade association, for more space for exhibits.

The requests come from dealers who either came too late to be represented because of limited room or from those who already have been allotted a place, as the space already in use is generally dissatisfied with the smallness of the space they are given to use.

The building has a total floor space of 175x210 feet, since the choir loft at the east end of the building has been torn out. The plan discloses that the center space will be filled with automobile at motor displays, two main aisles cutting it east and west, while a passageway is allowed all around the outside of the enclosure.

Exhibits of motor accessories will line all four walls. The semi-circular bandstand at the eastern end of the interior is constructed 20 feet off the floor, with a stairway leading upward, to allow more floor space.

NEED TRAINED MEN FOR WORK
 Many Delegates Attend State Conference of Y. M. C. A. Workers in Chicago.

The great need of men to fill secretarial positions and occupy other offices with the Young Men's Christian Association was one of the points emphasized at the state conference in Chicago Thursday, according to O. J. Stritt, general secretary in Rock Island. Attending the conference were about three hundred association officers, directors and those interested in Y. M. C. A. work. Besides Mr. Stritt, the meeting was attended by M. E. Strietter, John Hauberg and R. G. Summers, representing the local association.

An entire afternoon session was devoted to a discussion of three problems to be met by the state organization. The scarcity of young men to enter the field of Y work was dwelt upon by speakers as a great danger threatening the association. It was pointed out that young men were manifesting the materialistic tendencies of the times in their refusal to enter lines of sacrificial endeavor offered by associations and churches.

The "occupation of the field" committee gave its report, recommending that the association turn its attention to a thorough covering of the area now included in Y work, rather than to an effort to branch into other fields.

 Charles McHugh, Formerly Manager of Harper House, Now Owns Lexington.

The friends in Rock Island of Charles McHugh, who grew up in the Harper house in this city, and afterwards became its manager and later was lessee of the Lexington hotel in Chicago, will be glad to know that he has just recently completed the purchase of the Webster hotel at Forty-fifth street, near Fifth avenue, New York.

McHugh some time ago leased the property and has prepared so completely that he recently planked down \$600,000 for the purchase of it. The Webster is one of the neatest and most inviting hotels in one of the most popular sections of the metropolis, and since Mr. McHugh became identified with it, scores of tri-city people and business men have been making it their headquarters while in New York.

ALLOW LARGEST SUM TO MOTHER CONCERN SAVED TO ROCK ISLAND
 Mrs. R. E. Almblad of Moline, With Family of Seven, Secures Pension of \$40 Month.

What is said to be the largest mothers' pension allotment on county records was made by Judge Nele A. Larson in county court this morning, when the family of Mrs. Ruth Elizabeth Almblad, Moline, was ordered to be provided with \$40 per month from the pension fund. This will in a large measure alleviate trying circumstances which have been experienced by the family, according to Mrs. Almblad's story.

The mother and seven children, whose ages range from one year to 17 years, were well provided for by an industrious father and husband until a few weeks ago. Then influenza caused the death of the provider, and the hard times began. Every one of the little tots were suffering from the flu, and one is now in the hospital. Bills for the necessities of life kept mounting higher and higher. Finally their case came to the attention of the authorities, who gave speedy relief.
